# FORTY-SEVENTH ANNUAL REPORT. 

## TO THE RIGHT HONOURABLE THE LORDS <br> COMMISSIONERS OF HIS MAJESTY'S TREASURY.

## My Lords,

I have the honour to submit to your Lordships the Forty-seventh Annual Report of the Postmaster-General, being an account of the business of the Post Office for the year ended the 31st of March 1901.

It is estimated that the number of postal packets delivered in Statistics of the United Kingdom during the year was as follows:-

|  | Number. | Increase per Cent. | Average Number to each Person. |
| :---: | :---: | :---: | :---: |
| Letters - | 2,323,600,000 | $3 \cdot 4$ | $56 \cdot 7$ |
| Posteards - - | 419,000,000 | $4 \cdot 7$ | $10 \cdot 2$ |
| Book Packets and Circulars | 732,400,000 | $4 \cdot 2$ | $17 \cdot 9$ |
| Newspapers - | 167,800,000 | $2 \cdot 7$ | $4 \cdot 1$ |
| Parcels (actual number) | 81,017,000 | $7 \cdot 4$ | $2 \cdot 0$ |
| Total | 3,723,817,000 | $3 \cdot 8$ | $90 \cdot 8$ |

The letters have increased by 23 per cent. since 1896-7, the year previous to the Jubilee reduction of postage; and a large part of the increase has been in the rural districts. The letters delivered in London last year show an increase of 5 per cent. on the previous year. The remarkable increase in the number of circulars and book packets is largely due to the general election.

The growth of Parcel Post business has been exceptional. Parcels have increased 27 per cent. since the reduction of postage in 1897. Of the total number delivered in 1900-1, 69,612,956 were rail-borne, while 11,403,916 did not pass over a railway. Details of the Parcel Post with places abroad will be fonnd on a later page of this Report under the head of Foreign and Colonial Post.

The number of letters registered in the United Kingdom was Registered 17,729,869, an increase of $9 \cdot 1$ per cent. over the number in articles. the previous year. The number of parcels registered was See also $\begin{gathered}\text { Appendix A., }\end{gathered}$ 940,025 , the increase over the number in 1899-1900 being

## Parcels.

 See also Appendix A., p. 28. $12 \cdot 2$ per cent.
## Express Delivery Service.

Statistics. See also
Appendix A., n. 31 .

Combined railway letter serrice and express delivers.

District Messenger Company.

The total number of express services was 804,447 , as compared with 720,381 in 1899-1900, an increase of $11 \cdot 7$ per cent. In London 818,959 articles were delivered by express messengers, including 307,051 letters sent out for delivery in advance of the postman.

In the Appendix, on page 31, will be found a statement of the growth of the Post Office Express Service since its establishment 10 years ago. The number of services has risen from 64,000 to 530,000 in London, and from 108,000 to 804,000 in the United Kingdom.

During the year there has been a considerable extension of the use made of the arrangement under which single letters can be despatched by any train selected by the sender and can be met and delivered by special messenger at the place of destination.

As your Lordships are aware, it has been decided to grant an extension of the licence to work the call box system and of the authority to deliver letters, which were granted to the District Messenger and Theatre Ticket Company in 1891 for a period of 12 years, i.e., up to 14th April 1903. The new licence of the Company will be granted for a further period. of 19 years, ending 31st March 1922, and the principal conditions will be as follows:-
(1.) The payment of a percentage on the Company's gross receipts (excluding theatre ticket business) in lieu of the existing royalties for call boxes and letter carrying, with a minimum payment of 500l. per annum :
(2.) The Company to be allowed to give a return signal from their office to the subscriber's call box :
(3.) The number of letters which may be carried by one messenger at one time to be raised from 6 to 10.

## Undelivered Postal Packets.

Statistics. The following are the numbers of undelivered packets dealt See also Appendix G.,
pp. $55-56$. with during the year :-

| Description. | Number. | Increase. |  |
| :---: | :---: | :---: | :---: |
|  |  | Total. | Per Cent. |
| Letters | 9,786,870 | 832,829 | $9 \cdot 3$ |
| Postcards | 1,619,391 | 124,306 | $8 \cdot 3$ |
| Book Packets and Circulars | 11,911,614 | 1,297,761 | $12 \cdot 2$ |
| Newspapers - - | 627,642 | 29,723 | $5 \cdot 0$ |
| Parcels - | 227,252 | 20,308 | $9 \cdot 8$ |

More than 382,000 postal packets addressed to South Africa were returned to this country as undeliverable; and nearly 25,000 letters sent from the Soath African Field Force to addresses in this cuuntry could not be delivered, and had to be sent back.

The large increase in the nu:nber of undelivered postcards, book packets, and circulars is due in great measure to the general election.

There has been a further very large increase-more than 12 Articles per cent.-in the number of articles found loose in the Post, found loose. which were more than twice as numerous as four years ago. The coin, which had escaped from packets, aloue amounted to $902 l$., or $122 l$. more than in the previous year.

No fewer than 345,690 packets were posted unaddressed. Unaddressed These contained 251l. in cash and bank notes, and 7,203l. in packets. bil!s, cheques, postal orders, stamps, \&c.

The total value of property found in undelivered letters, which had to be opened in the Returned Letter Office, was 681,335l.

Property in andelivered letters.

## London Arrangements.

During the year the Inland and Newspaper Sections of the General Post Office have been removed from St. Martin's-leGrand, where the accommodation had long been insufficient, to new buildings at Mount Pleasant, the sorting of the London and Foreign correspondence continuing to be done in the old office. Although every effort was made to secure the efficient working of the service, the division of the work caused for a time considerable confusion, resulting in a good deal of delay to correspondence. This was perhaps inevitable in a change affecting an office dealing with such a vast amount of postal matter. After the first fortnight the work was done in a much more satisfactory manner, and the difficulties in connection with the transfer have by degrees been overcome. Apart from the much improved conditions under which the duties are now performed, the public are bencfited hy the greater regularity which has been secured in the delivery and collection of their correspondence.

New letter boxes with separate compartments, one for Landon Double letter and Foreign correspondence, to be sorted at St. Martin's-le- boses. Grand, and the other for Provincial correspondence, to be sorted at Mount Pleasant, have been provided in the City, and the public have largely helped the Department by dividing the correspondence before posting it. Nearly 10 per cent. however is still posted in the wrong compartment, and in consequence frequently suffers delay.

## Conveyance of Mains.

Arbitration. The Waterford, Limerick, and Western Railway Company had for some time past been endeavouring to obtain an increase in the payment for the Mail Services over their lines, and as I was unable to agree to any increase, the Company took the case before the Railway Commissioners for decision. The result was that the former payment of $8,989 l$. a year, instead of being raised to $20,000 l$., as claimed by the Company, was reduced to $8,000 l$. a year.

Motor Vans for conveying Mails.

In my predecessor's report for the year ended 31st March 1899, it was stated that experiments made during that year in the conveyance of Mails by Motor Vans had proved unsuccessful, and that no permanent Motor Services had been established. Since that time some further experiments have been made which unfortunately have also proved unsuccessful ; but by my instructions my officers have, from time to time, been present at trials of motor vehicles, and although it has not yet been possible to establish any Motor Mail Services, I am not without hopes, in view of the recent development of motor locomotion in this country, that a vehicle capable of performing a regular and continuous service over an extended period may before long be secured.

## Miscellaneous,

Record of For some years it has been the practice to record houseaddresses for holders' changes of address and to re-direct correspondence free re-direction. of charge for a period of one year. In 1897 it was arranged that persons desiring to have the record continued beyond that period should have their wishes complied with on payment of a fee of $1 l$. 1s. a year. This fee has now been reduced to $1 s$., and the total period during which a record is kept has been restricted to three years.
Collection of In the case of firms who post a large number of parcels, the postal packets. Department has long been in the habit of collecting such parcels when requested to do so. The rule has, however, been that, for greater security, registered parcels must in all cases be taken by the sender to a Post Office; but a demand having arisen for an official collection of registered packets, conditions have now been laid down under which the Post Office will collect from firms and others in towns, free of expense, postal packets of all descriptions posted in sufficient numbers.

[^0]
## Foreign and Colonial Post.

Southern Rhodesia and the Bechuanaland Protectorate have New entries entered the Universal Postal Union. By its nmalgamation for into the postal purposes with the British East Africa Protectorate, Postal Union. Uganda is also incorporated in the Union, and the entry of the Somaliland Protectorate has been decided on and will take pluce very shortly.

At the festival held at Berne in the summer of 1900, in Celebration celebration of the 25 th anniversary of the foundation of the of 25 th Union, it was decided to erect a commemorative monument. Anniversary The execution of the scheme has been left to the Swiss Federal Council, and the cost is to be shared by the various countries of the Union.

The Orange River Colony and the Transvaal were included Penny in the penny letter postage scheme in December last; and the postage scheme has since been adopted by the Coluny of New Zealand. within the

During the year the system by which letters can be insured Insurance of against loss, damage, or abstraction, has been extended to the letters sent service between the United Kingdom and Bosnia-Herzegovina abroad. and the agencies of the Hong Kong Post Office in China. The increase in the number of insured letters sent to and received from places abroad has been maintained. The number despatched during the year was 5,026 , against 3,687 last year, and the number received was 31,278 , against 25,276 received last year.

The usual statistics of the weight of the Mails for and from Appendix B., places abroad are given in Appendix B. pp. 32-33.

The Foreign and Coloniai Parcel Post has been extended to Extension of certain places in Brazil, as well as to the Caroline, Marianne, Parcel Post. Marshall, and Palaos islands; while the system of insurance has been extended to parcels sent to Bosnia-Herzegovina, to Malta by the long sea route, and to Tripoli.

The uniform triple scale of postage which was adopted in Revision of 1898 for parcels exchanged by sea between the United Kingdom postage on and various other parts of the British Einpire, viz.-

has been extended to New Zealand. The same scale has been applied to parcels for the agencies of the Gibraltar lost Office at Tangier and other places in Morocco.

Reduced rates have also been brought in for parceis addressed to British Central Africa, China (Kiautschaiu) vid Germany, Congo Free S̃tate, Constantinople (by long sea route), Danish

West Indies, Dutch East Indies, Dutch Guiana, German East Africa, German New Guinea, German South West Africa, Honduras, Norwny, Smyrna (by long sea route), and Spain, while the opening of a British Post Office at Salonica rendered possible the despatch of parcels to that port at a cheap rate of postage.

By the establishment of an overland service of parcels to Australia and British New Guinea, Ceylon, Hong Kong, and the Straits Settlements, through France and Italy, the senders of parcels can, for a small additional cost, save a week in the transit time as compared with that by the sea route, which was the only one formerly available.

Growth of the Parcel Post. Appendix B., pp. $3 t-37$.

The total numb $r$ of parcels sent to and received from places abroad during the year was $3,124,294$, an increase of about 24 per cent. on the numbers of the previons year. The outward parcels have again increased in a much larger ratio than the inward parcels-a result doubtless, as last year, of the influence of the war in South Africa. In addition to a great increase in the number of parcels sent to the Cape Colony and Natal, large increases occurred in the numbers sent to France, Germany, Italy, India, Norway, and Sweden, as well as to Malta and the West African Colonies. On the other hand, there was a falling off in the number of parcels received from Colombia and India, in consequence probably of a revolution in the former case and of the plague in the latter.

Exports and According to the Board of Trade Returns, the value of the Imports.

Insured parcels.

West India Mails.

Direct Jamaica Service.
goods exported and imported by Parcel Post during the last two years was as follows:-

|  | 1899-1900. | 1900-1901. | Increase. |
| :---: | :---: | :---: | :---: |
| Exported - | $\stackrel{\mathfrak{f}}{2,565,846}$ | $\stackrel{\&}{3,118,853}$ | $\stackrel{\underset{552,507}{\mathcal{E}}}{\text { ( }}$ |
| Imported - | 1,118,014 | 1,183,006 | 64,992 |
| Totals | 3,683,860 | 4,801,359 | 617,499 |

The total number of Foreign and Colonial parcels insured shows an increase of nearly 20 per cent., being $204,8: 9(96,301$ despatched and 108,528 received), as against 171,374 in the previous year.

A contract was concluded on the 1st of September last with the Royal Mail Steam Packet Company for a continuance for five years of its fortnightly service from Southampton to the West Indies and Colon at the former subsidy of 80,000 l. a year.

Mails are now despatched to and received from Jamaica every week, there being a direct Mail Service between the United

Kingdom and the Colony once a fortnight, by means of steamera sailing between Bristol and Jamaica under a contract concluded last year for other purposes between Messrs. Elder, Dempster, and Company and the Crown Agents for the Colonies, and alternating with the service provided by the Royal Mail Company.

Particulars of the existing Foreign and Colonial Mail Packet Appendix D., Contracts are given in Appendix D. A new contract is being pp. 46-47. made for tive years with the Canadian Pacific Railway Company for the service with China and Japan viâ Canada.

The arrangements connected with the conveyance of mails Channel between England and France have recently been the subject of Service. careful consideration; and a conference was held at Dover to discuss measures for improving the service. Correspondence sent to Paris by the day mail should now be delivered by the 6 th instead of the 7 th delivery; and the punctuality of the night mail has, it is hoped, been more effectually secured. The special Indian mail service viâ Calais has been re-arranged so as not in any way to interfere with the continental mails; and further improvements may be looked for as soon as certain works now in progress are completed.

There has been a great increase of correspondence for India Eastern and the East during the last few years; and the weekly mail Mails. now contains on an average about 2,230 bags. The mail despatched on the 7 th of December last, containing a large amount of correspondence intended for delivery about Christmas or the New Year, consisted of 2,885 bags.

The Army Post Office is still in operation in South Africa. War in Sonth The staff now consists of 7 officers and about 540 men. The Africa weekly mail for the Army Post Office contains on an average 204,000 letters and 115,300 packets of printed matter; and it is estimated that during the year ended the 31st of March 1901, $11,551,300$ letters were sent to the troops and $9,250,000$ were received from them. During the same period the parcels sent out to the forces in South Africa hy post amounted to 534,245 , the largest number despatched on any one occasion, namely, on the 1st of December 1900, being 19,672. About 8,745 such parcels are now sent each week.

As to the magnitude and difficulties of the work of the Army Post Office, I cannot do better than quote the following paragraph from Earl Roberts' despatch of the 16 th April last :-
"The magnitude of the task set the Military Postal Service may be appreciated when it is realised that the Ariny Mails from England have exceeded in bulk the whole of the mails arriving for the inhabitants of Cape Colony and Natal, and contained each week little short of 750,000 letters, newspapers, and parcels for the troops. No little credit is therefore due to
the department under Major Treble in the first few months, and for the greater part of the time under Lieut.-Colonel J. Greer, Director of Military Postal Services, for the way in which it has endeavoured to cope with the vast quantity of correspondence, bearing in mind the incessant manner in which the troops have been moved about the country, the transport difficulties which had to be encountered, the want of postal experience in the bulk of the personnel of the corps, and the inadequacy of the establishments laid down for the several organisations."

His Majesty has been pleased to confer the honour of C.M.G. on Messrs. Greer and Treble in acknowledgment of their services.

As there are no Field Post Offices in the Cape Colony, arrangenents have been made to enable soldiers stationed in that Colony to purchase and cash British Postal Orders at some of the Civil Post Offices.

Loss of the
"Mexican."

The loss of the Packet "Mexican," which foundered about 80 miles from Cape Town on her homeward voyage to this country, after collision with the steamer "Winkfield," involved loss to a large number of soldiers on active service in South Africa, many of whom had despatched the chocolate boxes given to them by Queen Victoria and other valuable articles to their friends in this country, enclosed in parcels or in registered letters, while others had remitted money which they could ill afford to lose. In view of the exceptional circumstances of the case, the Postmaster-General undertook legal proceedings in the Court of Admiralty on his own behalf and on behalf of the Postmasters-General of the Cape Colony and Natal, as well as on that of the senders or addressees of the lost parcels and registered letters, with the object of recoveringr, if possible, out of the money paid into that court by the owners of the "Winkfield," a sum which could be divided among those concerned. The claims of those persons who expressly authorised the Postmaster-General to represent them have been allowed.

Warin China.

For the benefit of the Expeditionary Force in North China, the Indian Government has established Field Post Offices with a base office at Hong Kong. The troops enjoy the same special facilities in the matter of postage as the troops on service in South Africa; letters sent unpaid because stamps are not obtainable are delivered free, the amount due for postage being recovered from Army funds.

## Money Orders.

Statistics. See also Appendix K., pp. 68-76.

The following comparative statement of the number and amount of the Orders dealt with during the year shows an increase at almost every point:-

Summary.

| $\cdots \square$ | Number. |  |  | Amount. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Total Inwards | 1,320,312 | + 78,475 | $+8.0$ | 3,580,348 | + 209,557 | +6.5 |
| Total Poreign and Colonial Orders - | 1,888,049 | + 93,480 | + 5.8 | 4,019,808 | + 228,895 | +4.7 |
| Grand total | 13,263,567 | +1,178,108 | $+9.7$ | 39,374,685 | +4,178,403 | + 11.8 |

The increase in ordinary Inland Orders ( $5 \cdot 2$ per cent. in Inland number and 8.6 per cent. in amount) is by far the largest for Orders. many years past.

The increase in Inland Telegraph Orders was again very large, and the total amount remitted exceeded 1,128,000l. Since the rates of commission on Telegraph Orders were reduced in February 1897, the number has increased by 130 per cent.

The average amount of an ordinary Inland Order was 2l. 19s. $5 d$. (or 1s. 11d. more than last year), and of an Inlend Telegraph Order, 3l. 1s. 2d. (or 2s. 10d. less than last year).

It will be noticed that for Government Orders an increase of 29 per cent. in number and 27 per cent. in amount is shown.

The total amount remitted by such Orders was more than eight and a half millions sterling, of which $4,373,000 l$. were paid on behalf of the War Otfice for Army pensions, reserve pay, and the allotments and separation allowances granted to the wives and families of reservists in the field. It has, moreover, been decided by the War Office and Admiralty to use Money Orders for paying the pensions granted to the widows and orphans of soldiers and sailors who have fallen in South Africa.

Foreign and Colonial Orders.

Exchanges of ordinary Money Orders have been commenced with Samoa, Greece, British Central Africa, the Orange River Colony, the British Post Offices at Constantinople, Smyrna, and Salonica, and the Japanese Postal Agencies at certain places in China. Negotiations with several other countries are in progress. The Telegraph Money Order system was extended during the year to Italy and Sweden. The extension to France and Algeria will fall to be recorded in the report for the present year. The Telegraph Money Orders issued in the United Kingdom for payment abroad were 3,560 in number and $18,543 l$. in amount, while those issued abroad for payment in this country numbered 3,267 and amounted to $18,628 l$. Further extensions of the system are in contemplation.

## Postal Orders.

Appendix L., The number of Postal Orders issued to the public during p. 77. the year was $85,390,029$, representing $29,881,726 l$. The produce of the commission on these orders was $3.59,296 l$. The orders have increased 3.98 per cent. in number and 4.36 per cent. in amount during the year.

The value of the stamps affixed to Postal Orders by the holders during the jear was $180,140 l$.

## Post Office Savings Bank.

Appendix J., During the year ended the 31st of December 1900, 14,969,849
pp. 60-67. Deposits and withdrawale.
deposits were made, the total sum deposited being $40,516,436 l$. the withdrawals numbered $5,406,347$, the total sum withdrawn being $38,231,372 l$. The sum of $3,145,978 l$. was credited to depositors as interest; and the total amount due to these at the end of the year was $135,549,645 l$. The amount added in the year to the total credit of depositors has steadily fallen from $10,230,000 l$. in 1896 to $5,431,000 l$. in 1900. On the other hand, as shown sulsequently, the amount of Government stock held by depositors in the Bank increased during 1900 by 2,000,000l.

The deposits on the 31st December 1900 were 124,469 , smounting to $458,115 l$., and exceeded both in number and amount the record for any previous day in the history of the
bank. The largest number of withdrawals in one day was 44,805 on the 18th December ; the amount withdrawn was $221,149 l$.

The number of withdrawals by telegraph on the day of Withdrawals application was 167,389 . Under the system in which application by Telegraph. for the money is made by telegraph, and the warrant is sent by return of post, there were 11,609 withdrawals.

The total number of new accounts opened was $1,376,171$, and Accounts. of accounts closed 982,868 . Of the accounts opened, 293 were for friendly societies; 1,794 for charitable, provident and trade societies; and 230 for penny banks. The number of accounts opened by registrars of county courts for the deposit of money paid into Court was 580 . Of these 360 , to the amount of 22,987l., were the outcome of cases under the Workmen's Compensation Act. The total number of accounts remaining open on the 31st December 1900, their distribution, the average a'noutt of each, and the propartion of depositors to population, are as folluws:-

|  | $\begin{aligned} & \text { Number } \\ & \text { of } \\ & \text { Depositors. } \end{aligned}$ | Total Amount 10 Credit of Depositors. | Average Amount to Credit of cach Depositor. | Proportion <br> of Deprsitors to Population. |
| :---: | :---: | :---: | :---: | :---: |
| England and Wales | 7,685,317 | $\stackrel{\underset{122,365,193}{£}}{ }$ | $\begin{array}{ccc}\text { f } & s . & d . \\ 15 & 18 & 5\end{array}$ | 1 in 4 |
| Scotland | 372,801 | 5,126,299 | 13150 | 1 in 12 |
| Ireland - | 381,865 | 8,058,153 | 2121 | 1 in 12 |
| Totals | 8,439,983 | 185,549,645 | 1618 | 1 in 5 |

The average amount to the credit of each depositor was $28.2 d$. less than at the end of 1899.

The arrangement under which the deferred pay of soldiers Soldiers' leaving the army is deposited by the War Office in the Pust accounts. Office Savings Bank has been almost in abeyance owing to the war. Only 2,069 deposits, representing $36,729 l$., were received, and $64 \frac{1}{2}$ per cent. of the sums deposited were withdrawn within one month by the soldiers to whose credit they had been placed.

The effect of the low price of Government stock on the Investments investments of Savings Bank depositors is shown in the following in Governtable :-

| Year. | No. of Parchases. | Amount invested. | Average Price of <br> Consols. |
| :---: | :---: | :---: | :---: |
| 1899 | 26,531 |  |  |
| 1900 | 41,030 | $2,770,170$ | $107 \frac{1}{4}$ |

The amount of stock sold by depositors in 1900 was $678,374 l$. as against $686,135 l$. in 1899. Stock certificates with coupons for dividends attached were obtained for depositors to the number of 41 , and to the amount of 6,0001 ., and 353 transfers, amounting to 75,189l., were made to depositors' accounts at the Bank of England. These figures were largely in excess of those for the previous year. On the 31st I)ecember 1900 there were in connection with the bank 93,965 stockholders, with $10,468,290 l$. stock standing to their credit, being an increase during the year of 14,967 stockholders and $2,071,077 l$. stock.

Annuities and life insurance.

The immediate annuities purchased during the year numbered 2,258 , and amounted to $49,893 l$. They included 545 purchased by the "Daily Telegraph Shilling Fund" for widows of soldiers who had died in South Africa. The deferred annuities were 137 in number and 2,722l. in amount. Only 677 contracts for life insurance to the amount of $35,512 l$. were granted in 1900 , as against 827 for 43,723l. in 1899.

Expenditure. The net expenditure of the bank for the year was 487,025l., representing an average cost per transaction of $5 \cdot 73 \mathrm{~d}$. as against $5 \cdot 75 d$. in 1899. The ratio of the expenses to the total sum standing to the credit of depositors was as $78.2 \frac{1}{4} d$. to $100 l$. The corresponding amount in 1899 was 78 . $3 \frac{1}{4} d$., and five years ago it was 8 s.

While for the four previous years the expenditure exceeded the income, in 1900 there was once more a balance of profit amounting to 10,465 l.

Regulations. Savings Bank came into force on the 1st of August 1900. Among the most important of the alterations is a provision that the marriage of a depositor coutracted on or after the date just mentioned has the effect of revoking any nomination made by him or her before marriage, except in the case of a depositor domiciled in Scotland, the Channel Islands or, in certain cases, in the Isle of Man. When a nominee dies in the depositor's lifetime leaving issue, such issue is now entitled to the surn the nominee was appointed to receive; and provision is also made for the payment of debts out of a sum nominated, where the Postmaster General has notice of a claim, if the estate apart from the sum nominated is not sufficient to satisfy the claim.

The rule that deposits must be multiples of a shilling has been relaxed in the case of the accounts of societies; and their treasurers and other officers are thus relieved of the necessity, which was sometimes inconvenient, of having to hold over any odd pence they might have in hand.

County Court The County Courts (Investment) Act, 1900, provides that all Investments. money paid into a county court in any proceedings, and ordered
by the judge to be invested for the benefit of any infant or person of unsound mind, may be deposited in the Post Office Savings Bank.

## Telegrapes.

The number of telegrams sent over the wires of the Depart- Statisticsment during the year was $89,576,961$, showing a decrease of $\cdot 92$ per cent.
The following table gives the number of each kind of telegram, and the amounts received in respect of each, as compared with the figures for the previous year:-

| Class of Telegram. | Number. |  |  | Receipts. |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1900-1901. | 1899-1800. | $\begin{gathered} (+) \text { Increase } \\ (-) \text { or } \\ \left(- \text { Decrease. }^{2}\right. \end{gathered}$ | 1000-1801. | 1899-1900. | $\begin{aligned} & \text { (+) Increase } \\ & \text { ( - ) Decreise. } \end{aligned}$ |
| Ordinary Inland - | 73,184,864 | 74,151,885 | - 986,581 | $\underset{\text { 2,257,309 }}{\stackrel{\boldsymbol{e}}{2}}$ | $\stackrel{\underset{2,299,574}{\boldsymbol{e}}}{ }$ | $-\stackrel{\varepsilon}{\boldsymbol{\varepsilon}}$ |
| Press (Inland) | 0,861,761 | 6,812,781 | + 148,980 | 141,600 | 143,233 | - 1,633 |
| Foreign - - | 7,641,090 | 7,521,540 | + 119,550 | 367,080 | 358,943 | + 8,117 |
| Railway, free - | 1.280,876 | 1,448,768 | - 162,890 | - | - | - |
| - reduced rate | 31,106 | 31,458 | - 350 | 608 | 816 | 10 |
| Goverument, free - | 477,264 | 464,195 | + 23,069 | - | - | - |
| Totals | 89,576,981 | 90,415,123 | -838,162 | 2,768,665 | 2,802,366 | - 35,701 |

The estimated value of railway free telegrams is $50,866 l$., and of Government free telegrams $28,014 l$., making a total of $78,970 l$.

The decrease in the number of ordinary Inland telegrams was 1.30 per cent. as compared with an increase of 2.88 per cent. for the previous year. The local traffic in London showed a decrease of 2.11 per cent., and Stock Exchange telegrams a decrease of nearly 14 per cent. The revenue shows a falling off of 1.83 per cent., the average value of an inland telegram being $7 \cdot 40 \mathrm{~d}$., as compared with $7 \cdot 44 \mathrm{~d}$. last year, and with $8 \cdot 12 \mathrm{~d}$. in 1885-6, the first year after the introduction of sixpenny telegrams.

Foreign telegrams show an increase of 1.58 per cent., the total Foreign of $7,641,090$ being the highest on record.

Telegram
The number of press telegrams also exceeds the number Press Telesent in the previous year, the increase being at the rate of grams. $2 \cdot 18$ per cent. The receipts from these telegrams, however, show a decrease. The average weekly number of words in press telegrams was $16,065,602$, as compared with a weekly average of $15,721,802$, for the previous year. Special

$$
\wedge \quad 16750
$$

weastres have keen taken to cope with this large amount of press work, and to obviate delay in transmission. I am glad to think that these measures have been successful from the point of view of the newspapers concerned. At the same time it is to be borne in mind that press telegrams entail a heavy financial burden on the telegraph service, which has to provide highly skilled officers and special apparatus for the disposal of the work, and to perform that work at a charge which is totally inadequate to meet the expenses.

Illness and death of H.M. Queen Victoria.

Extensions of the Telegraph.

The circumstances attending the death of Her Majesty Queen Victoria gave rise to a large amount of telegraph business. On the 1st February, the day preceding the funeral of Her Majesty, the number of telegrams $(199,155)$ passing through the Central Telegraph Office, London, was the highest number ever dealt with in one day at this office. There was also great pressure at Cowes, Portsmouth, and Windsor; and 63 telegraphists were withdrawn from London to supplement the ordinary staff at those offices. His Majesty the King was graciously pleased to express his appreciation of the way in which the special arrangements were carried out.

During the year 324 new telegraph offices were opened, including four at railway stations. Of these, 250 were opened under guarantees, of which 101 were provided by public bodies and 149 by private persons.

In connection with the coast communication scheme, extensions have been made to 32 additional points, 14 being in England, 7 in Scotland, and 11 in Ireland.

New wircs.
New wires have been erected between London and Benacre, and London and Bacton, to connect with the new cables tc Holland and Germany referred to below, and a number of new circuits have keen provided between the priucipal centres of trade in various parts of the country.

The underground line between London and Birmingham, mentioned in previous reports, has been brought into use, and has already proved of advantage to the Department during interruptions of the overbead lines. There is the drawback that, for some high-speed systems of working, two underground wires are required where one aerial wire would suffice; but the advantages are on the whole great enough to justify the extension of the London-Birmingham line northwards and the construction of another underground line north of Preston, where the exieting overground lines are much exposed to storms.

The facilities generously afforded by the Eastern Telegraph Telegrams Company for the transmission of telegrams at half rates to the for the troops troops in South Africa have been extended by the Company, in in China. conjunction with the Great Northern Telegraph Company, to the members of the expeditionary force in China. The arrangement came into operation on the 1st November last, the charge being reduced from $5 s .6 d$. to 28.9 d . a word. The companies at the same time agreed to convey telegrams at the same rates of charge for the troops of other nations serving with the expeditionary force; and practically all the states concerned availed themselves of the privilege.

A new four-wire cable to Holland was laid by this depart- Improved ment in November last, between Benacre in Suffolk and Zandvoort; and, as the result of arrangements made within communioation with the the year under review, an additional cable has since been laid by the German Telegraph Administration between Bacton in Norfolk and Emden in Germany. In each case the cable has been provided at the joint expense of this country and the foreign administration concerned. These additional facilities will effect a considerable and much needed improvement in the telegraphic service between this country and Germany and the Netherlands

Direct telegraphic working between London and Genoa, was Direct wire established on the 16th of June 1900; and the provision of to Genoa. direct wires to other centres of commerce on the continent is under consideration.

The Eastern Telegraph Company have established disect cable New foreign communication botween Porthcurno, in Cornwall, and St. cables. Vincent, vid Madeira, to join the cable from South Africa, via St. Helenir and Ascension, which had been landed in S.t. Vincent in the previous year. These cables complete a third and independent route between this country and South Africa. The Eastern Telegraph Company have also undertaken the construction of a cable from Natal to Australia, vid Mauritius and the Cocos Islauds. The first section between Natal and Mauritius has recently been completed and opened for traffic.

In conjunction with the Great Norihern Te'egraph Company, the Eastern Extension Telegraph Company have laid a cable from Shangbai to Chefoo and Taku. The cable nas primarily laid in connection with the operations of the expeditionary force in Northern China, and has provided a much needed means of communication. The Eastern Extension Company have also laid a cable from Chefoo to Wei-hai-wei, under an agreement with H.M. Government. Further extensions have been inade from Chefoo to Tsintau and Shanghai on behalf of the German Government, and from Chefoo to Port Arthur on behalf of the Russian Government.

Reductions in Foreign tariffs.

Meteoro. logical telegrame.

Staff withdrawn for service in South Africa.

The Imperial Government and the Governments of Canada and certain of the Australasian Colonies have entered into $a$ joint contract with the Telegraph Construction and Maintenance Company for the construction and laying of a cable across the Pacific from Vancouver to Australia vid the Fanning Islands and Fiji.

Several reductions have been effected in the telegraph rates to British Colonies and to Foreign Countries. The most important of these are :-

|  | Reduced |  |
| :---: | :---: | :---: |
|  | From | To |
| Africa: British Central - - - - | $\begin{gathered} \text { A Word. } \\ \begin{array}{c} \text { s. d. } \\ 4 \\ \hline \end{array} \end{gathered}$ | $\begin{aligned} & \text { A Word. } \\ & \text { s. d. } \\ & \text { 3 } 11 \end{aligned}$ |
| Cape Colony, Natal, Orange River Colony, Transvaal and Zululand | 40 | 36 |
| Rhodesia : |  |  |
| Northern | $\begin{array}{ll}4 & 5 \\ 4\end{array}$ | 311 3 |
| Southern Anstralasia | 42 | 38 |
| Australasia: New South Wales | 411 |  |
| Scuth and Western Australia | 49 | 36 |
| Tasmania - - | 55 | 36 |
| Ascension and St. Helena | 40 | 36 |
| Brazil : Pernambuco - | 36 | 80 |
| West Indies : Caba | 26 | 110 |
| Europe : |  |  |
| Bulgaria and Eastern Roumelia Roumania | $\begin{array}{ll}0 & 4 \\ 0 & 4 \\ \end{array}$ | $\begin{array}{ll}0 & 4 \\ 0 & 4 \\ 31\end{array}$ |

The reductions in the case of South Africa and the Australasian Colonies have been effected in connection with the new cables between this country and the Cape, and between Natal and Australia, already referred to. In both cases arrangements have been made for an ultinate reduction in the rate on the sliding scale principle to $28.6 d$. a word.

The fee for the weather reports and forecasts of the Meteorological Office was reduced, by agreement with that department, from 18. to $6 d$. per message.

Throughout the year the Staff of Telegraphists has been very largely drawn upon for men required in connection with the telegraph service in South Africa, and in addition to these, many have gone to the front as members of the special corps which have been raised during the war. The temporary loss of so many skilled telegraphists has been somewhat severely felt. At the Central Telegraph Office alone the average number absent during the 12 months was 113.

The pressure has also been felt in the engineering department. Altogether 14 engineers and 307 linemen and mechanics have left for South Africa. Of these 131 were Royal Engincers employєd by this Department in the southern district of England. The absence of these specially trained men has been a source of much difficulty and has led to unavoidable delay in construction work.

Allusion may be made to the serivus fire which broke out in Fire at Manthe Manchester Post Office on the 19th of September last, and chester. destroyed the telegraph instrument galleries. Telegraphic communication between Manchester and the rest of the country was for a short time interrupted; and even when it was restored, many telegrams which would ordinarily have circulated through Manchester had to be sent by other routes, the time occupied in transit being thus unavoidably increased.

## Telefhones.

The number of Post Offices open for Trunk Telephone business Trunk Wire on the 31st of March last was 312, an increase of 13 in the year. Service. The trunk circuits in use consisted of approximately 76,831 miles of wire, and 7,700 miles of wire were in course of construction. Out of the sum of $2,300,000 \mathrm{l}$. authorised by Parliament for the purchase and development of the trunk system, the expenditure up to the 31 st March last was approximately $1,695,822 l$. The expenditure during the year was approximately 164,189 l.

During the year the trunk system was extended to the following places, under guarantee from the National I'elephone Company :-

| Bishop's Stortford. | Chichester. | Lymington. |
| :--- | :--- | :--- |
| Braintree. | Haverfordwest. | Newry. |
| Brentwood. | Holywell. | Sleaford. |
| Bury St. Edmunds. | Horsham. |  |
| Carmarthen. | Huntly. |  |

Additional circuits were also authorised to serve the following places which were already on the system:-

| Accrington. | Blackburn. | Castleford (Yorks). |
| :--- | :--- | :--- |
| Alloa. | Blyth. | Chester. |
| Ardrossan. | Bolton. | Chesterfield. |
| Ashton - under - | Bournemouth. | Coventry. |
| Lyne. | Bradford (Yorks). | Darlington. |
| Aylesbury. | Brighton. | Derby. |
| Barnsley. | Bristol. | I)ewsbury. |
| Barrow-in-Furness. | Burnley. | Doncaster. |
| Barry. | Burton.on-Trent. | Dundee. |
| Beith. | Bury (Lancs). | Eastbourne. |
| Birmingham. | Cardiff. | Edinburgh. |

Local Exchanges.

| Exeter. | Newport (Mon.). | Southampton. <br> Forfar. |
| :--- | :--- | :--- |
| Northampton. |  |  | Suthend-on-Sea..

The total number of trunk transactions during the year was $8,975,148$, or, reckouing each transaction as involving at least two spoken messares, a total number of $17,950,296$ (an increase of 10.87 per cent. over that of the preceding year). The revenue was $211,209 l$. (an increase of $10 \cdot 18$ per cent.), and the average value of each transaction was $5 \cdot 64 d$., practically the same as in the preceding year.

Post Office Exchanges were opened during the year at the following places, the exchange in each case being placed in connection with the trunk system :-

| Aylesbury. | Elswick Road, | Ryton. |
| :--- | :--- | :--- |
| Blaenavon. | Newcastle. | Senghenith. |
| Bridgend. | Neath. | Tredegar. |
| Castle Eden. | Penarit. | Tyloretown. |
| Clayton Road, | Priace Consort Rd., |  |
| Newcastle. |  | Gateshead. |

Arrangements have also been made for the establishment of Exchanges at other places in the Provinces.

London Telephone System.

The provision of the Post Office Metropolitan Exclange System is progressing satisfactorily. In connection with the works now proceeding, there are to be exchanges at Queen Victoria Strect, E.C. (Savings Bank Building9), Westminster, Kensington, Chiswick, Putney, Richmond, Twicienham, Kingston, Wimbledon, and Croydon. Ultimately there will be about 40 exchanges in the London area.

In the City the greater part of the underground work has been completed. About 160 miles of pipes have been laid. into which nbout 20 miles of cables (each containing from 200 t,

434 wires) have alraady teen drawn. In the other districts (Westminster, Kensington, etc.) about 110 miles of pipss have bsen laid, and about 16 miles of cable drawn in. As soon as these sestions of the system have been completed, work will bs commenced in other parts of the Metropolitan area, but a considerable time must of course elapse before the whole area can be served.

Owing to unforeseen difficulties which have been met with in carrying out the underground work, and in obtaining and aiapting buildings for the exchanges, it has not yet been practicable to bring the system into operation.

During the year Telephone Licences were granted to the Manicipal Corporations of Belfast, Grantham, Hudderstield, and Tunbridge Telephones. Wells; and since the 31st March a Licence has been granted to the Corpration of Brighton. Applications for Licences from other Corporations and Local Companies have been received.

The revenue from the Post Office telephone and private wire Revenuesysten was $155,694 l$., as against $148,250 \mathrm{l}$ in the previous year. Appendir N., The rates were reduced during the year, and subscribers were p. 79. given the option of renting their circuits at inclusive or at toll rates.

The anount of the royalty paid by the National Telephone Company was $140,448 l$.

Post Officis and Letter Bones.
The total number of Post Offices open on the 31st March last was made up as follows:-

| - | L?ndon. | England and excludiu, exclurding. Loudon. | Sertlani. | Ireland. | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Head Offices | 11 | 622 | 148 | 120 | 901 |
| Branch Offices | 111 | 109 | 30 | 11 | 261 |
| Town Sul-Offices - | 877 | 3,730 | 322 | 199 | 5,128 |
| Country Sub-Offices | - | 11,415 | 1,806 | 2.678 | 15,899 |
| Totals | 999 | 15,876 | 2,306 | 3,008 | 22,189 |

The total includes 249 additional offices opened during the year. Of the 22,189 offices, 13,394 are open for Money Order and Savings Bank business, and 9,171 for Telegraph business, which is also transarted at $2,3+1$ railway stations.

The number of letter boxes was increased during the year from 32,593 to 33,590 .

## Post Office Buildings.

Now and enlarged offices.

The Mount Pleasant Sorting office.

Ninety-two Post Offices belonging to the Crown have been opened during the year, of which 49 are new buildings specially erected for the purpose. Twenty seven Post Offices have been enlarged, and 72 are in course of erection or enlargement.
The Surting Office at Mount Pleasant, which was completed in 1900, has a floor space of between six and seven acres. The lengith of the sorting tables is a mile and a half. Nearly 4,000 persons are employed there, and they deal with nearly $12,000,000$ postal packets a week. Every day 1,730 mail vans call there, and 200 tons of mail matter pass through the Office.
General Post The space left in the General Post Office (East) by the Office, St. transfer to Mount Pleasant of the work of sorting the Provincial Grand.

Telephone Exchanges. Mails, has been utilised for a much needed expansion of the branches of work remaining in the old building. In order to gain space in the General Post Office (West) for additional telegraphic communication with the Continent, the public office at St. Martin's-le-Grand was retransferred in January to the East Building, whence it was moved in 1897.

Considerable progress has been made with the central exchange for the London Telepbone system, which will ultimately occupy a large part of the present Savings Bank Buildings in Queen Victoria Street; and outside premises have been hired in order to provide temporarily for the Savings Bank Staff displaced. Progress has also been made in providing accominodation for telephone business in the South-Western District of London, South Kensington, Chiswick, Wimbledon, and other centres.

Expenditure. The Expenditure out of the Post Office votes for the acquisition of sites and buildings during the year amonnted to 114,608l., as against 153,071l. in 1899-1900. The expenditure by the Commissioners of Works and Buildings on buildings for the Post Office amounted to $205,479 l$. in Great Britain and $24,391 l$. in Ireland. The corresponding figures for the previous year were $263,705 l$. and $22,081 l$.

## Staff.

Appendix F., The number of persons on the establishment of the Post pp. 49, 50. Office, including all Head and Sub-Postinasters, is 94,132 , of Numbers. whom 15,216 are women. The number added during the year is 2,859 .

In addition to the above, there are 79,052 persons filling unestablished situations (some of them employed only for an hour or two daily), of whom 20,161 are women. The number added during the year to the unestablished force is 3,255 .

The total number of persons employed in the Post Office is thus 173,184.

The number of persons dismissed during the year was 1,216, Dismissals, while 331 men were deprived of good conduct stripes. The eto. corresponding figures for 1899-1900 were 915 and 259.

The principal feature connected with the Staff has been the Men withlarge demands made upon it for men to serve in South Africa, drawn for either with the Army or as civilians :-

100 Officers, chiefly provincial Sorting Clerks and Telegraphists, have been demanded for service with the Army Post Office; 50 Telegraphists for service with the Royal Engineers; 30 for Civil Post Office employment in Natal; 100 for Civil Post Office employment in the Transvaal ; and 66 for Civil Post Office employment in the Cape Colony.

The withdrawal from the Post Office Service at home of these trained men, in addition to those previously sent to South Africa, has constituted a serious drain on the resources of the Department; and when it is borne in mind that, in the case of all the Reservists and of the raen sent to the Royal Engineers and the Army Post Office Corps, their situations have to be kept open, it is evident that the efficiency of the service must be impaired.
Of the men first sent to South Africa, 1,100 have now returned to England and resumed duty in the Post Office. These men were invalided or sent home as "tine expired."

The usual tables follow, showing the percentage of wages and Percentage salaries to Revenue and Expenditure. of wages to Revenue and Expenditure.

| Year. | Total Revenue. |  |  | Salaries and Wages. |  |  | Percentage of Combined Salaries and Wages to Combined Revenue. |

## Health of the Staff.

Sick absence, Scarlet fever has been very prevalent during the year, but notwithstanding that 221 persons were absent owing to this cause, the average sick absence of the Staff was rather less than in the previous year, being 68 days for each man and 10.6 days for each woman, as against 7.3 and 10.8 respectively.

These figures and also those in the following table and in the second and third tables of Appendix F. relate only to the staff under the care of the 597 departmental medical officers, namely, 77,165 men ( 52,682 established and 24,483 unestablished) and 10,077 women ( 8,002 established and 2,075 unestablished):-

The number of persons placed off duty owing to the presence Infoctions of infectious diseases (chiefly scarlet fever and diphtheria) in their homes was 1,271 , and the time thus lost to the Department diseases in was 19,765 days.
Although in Glas jow and other towns where small-pox was Small-pox. very prevalent during the year, many postmen and telegraph messengers had to visit infected areas, no evil consequences to any of them appear to have arisen. This satisfactory immunity the Chief Medical Officer ascribes to the enforcement of revaccination on all persons entering the Post Office service.
Statements as to the diseases which led to death and retirement during the year at places where there are departmental medical officers are given in Appendix F.
As attention is now being called to the mortality from phthisis and tuberculosis, it may be desirable to point out that in the

Deaths and retirements. See also Appendix F., pp. 51-54. Post Office service the deaths ascribed $t$, these causes in the year numbered 61 and the retirements 92 . These figures appear to indicate that those employed in the pervice of the Department are not specially liable to tubercular diseases.
The following tables relate to the established staff throughout the United Kingdom, that is to 78,916 men and 15,216 women, who, with a few exceptions, give their whole time to the Post Office service :-

Deaths in Bouth Africa.

Of the 69 men holding established appointments reported as having died in South Africa during the year, 9 are recorded as killed, 4 as having died from wounds, 2 from accidents, 51 from disease, and 3 from unknown causes.
Betirement on marriage.

The number of women who retired on marriage in 1900 was 189, with an average age of 27 , and an average service of 8 years.

The number of candidates for Post Office appointments
Examination of Oandidates. medically examined was 5,666 men and 887 women, of whom 606 men ( $10 \cdot 7$ per cent.) and 135 women ( $15 \cdot 2$ per cent.) were rejected.

## Finance.

Appendices
P., Q., and R., pp. 82-85.

The postal revenue of the year, including the value of services rendered to other Departments, has been 13,995,470l., an increase of $601,135 l$. on that of the previous year. The postal expenditure has been $10,064,903 l$ l., an increase of $380,904 l$. on that of the previous year. The net profit was thus $3,930,567 l$., or $220,231 l$. more than last year.

The telegraph revenue of the year, 3,459,353l., shows a decrease of 1,1391 ., and the telegraph expenditure $3,812,569 l$. , an increase of $63,495 \mathrm{l}$. upon the previous year. The net deficit on telegraphs was thus $353,216 l$., or $64,624 l$. more than last year. If allowance be made for interest on the capital$10,868,663 l$.-created for the purchase of the telegraphs, the deficit on the year is raised to $652,104 l$.

These figures are, necessarily, partly estimated.
In conclusion I should like to express my sense of the loss the Department has sustained in the retirement of Mr. J. J. Cardin, C.B., the late Comptroller and Accountant General.

I have the honour to be,<br>My Lords,<br>Your Lordships' obedient Servant, LONDONDERRY.

2nd August 1901.

## THE NEW YORK PUBLIC LIBRARY REFERENCE DEPARTMENT

This book is under no circumstances to be taken from the Building

[^0]:    Postage
    All the halfpenny postage stamps, some of which were red stamps. and some brown, are now printed in a green colour, and the shilling stamp is now bi-coloured-green and red-instead of wholly green, as formerly. Progress has been made in preparing the dies for the stamps of the new reign.

[^1]:    - Including correspondence to and from the Army.

[^2]:    * Including parcels for and from Bulgaria, Roumania, and Servia.
    + Includink parcels for and from the French Possexsions. \&e.
    $\ddagger$ Ineludink parcels for and from Enstern Europe, German Possessions, \&e.
    of Including parcels for and from China and the China flee!.
    - Inc!udink parcels for and from the kepiblic oi honduras.

[^3]:    持 Including parcels for Army in South Africa.
    §§ Including parcels for Dutch Guiana.
    In Included in figures for Cape Culoriy:

    * Incladed in txares for Lohlata.

[^4]:    $\dagger \dagger$ Including parcels for Army in South Africa.
    In 1890-1900 the uniform scale of postnge was extended to the service with Bermuda, Hong Kong, Jamaica, and Mauritius, and the postage was reduced in the case of parcels exchanged by the overland route with Constantinople and Smyrna. A revision and simplification of the scales of postage in the service with the following foreign countries, \&c. was also effected :-AustriaHungary, Colombia, Eastern Europe, Egypt, French Possessions, Germany, German Possessions, Italy, Madeira, Portugal, St. Pierre and Miquelon, Siam, and Switzerland. In 1900-1901 the uniform scale was extended to the service with New Zealand and Tangier, and the postage was reduced in the case of parcels exchanged with Spain and by the all-sea route with Constantinople and smyrin. A revision and simplification of the scales of postape in the service with the following foreign countries, \&c. was also effected:-Dutch East Indies, Norway, and the Republic of Honduras.

[^5]:    Notra-

    1. In many cases the service commencod before the formal contract was oxecuted.
    2. In addition to the paymeuts given in detail above. Letters, \&c. are conveyed by Private Ships to and from places 1,400l. a year, and the principal payments are as follows :-

    For Guernsey, Alderney and Sark Service (special rates)
    n Glasgow, Greenock, and Londonderry Service.
    ,. Waterford and Milford Haven Service
    $\because$ Douglns (Isle of Man) Season services viA Barrow and Ardrosean
    ". Belfast and Barrow Service -
    8. There are also a number of small miscellaneous tixed payments for conveyance of Home Mails and for ferryago in any case 501. a yenr, which hare not been included in the $\mu$ bove statement.
    4. For the conveyunce of Outward American Mails on Saturday by train from Euston to Holyhead and thence by Homewurd Anurican Mails by stcamer from Dublin to Holyhead when required, 60l. a trip.

[^6]:    The figures for each year since 1877-78 include the number of certain Press Telegrams not previously included in these Returns.
    Pror to 1883-84 the returns were made to the end of the last complete week in the year. Since that time they are in each case to the last day of the year inclusive.

    On the 1st October 1885 the minimum charge for an inland telegram was reduced from one shilling to sixpence.

[^7]:    * No payment for the services rendered is received from any of the Government Departments, except the India Office, which pays two-thirds commission. The Metropolitan Police also pays two-thirds commission.

[^8]:    * These amounts include rentals for certain lines leased to Cable Companies.
    *These amounts include rentals for certain lines leased to Cable Companies.
    § The decrease is due to certain lines leased by Cable Companies baving been given up, and to the receipts for Telephone Trunk Lines being no longer Wires were reduced in 1897 and existing rentals were reduced accordingly.

    IT The rates for Exchange Wires were reduced in 1900 and Subscribers were given the option of renting their circuits at Inclusive or at Toll Rates.
