

## LIST OF ABBREVIATIONS OF TITLES IN COMMON USE IN THE POST OFFICE

This list is not intended to be comprehensive, but is confined to abbreviations in common use in the PO. It does not preclude the use of abbreviations for other terms in use in restricted fields, for example many engineering abbreviations which are given in EIs. Where abbreviations in this list have an alternative and generally recognised use (either inside or outside the Post Office) they may continue to be used in this way provided always that the alternative use would not give rise to any risk of confusion.

## Section 1—Grade and duty titles

In this Section, the prefixes "Assistant", "Chief", "Deputy" and "Senior" are shown in the case of the more common titles; in some other cases the basic title only is given but the prefixes "A", "C", "D" and "S" may be used where appropriate.
